

# **VASUNDHARA INDUSTRIES**

## COMPANY PROFILE

Manufacturer and Supplier of minerals, chemicals  
and gums

[www.vasugum.com](http://www.vasugum.com)

# ABOUT US

**Vasundhara Industries** was founded in 1976 by **Late Dr. Kamal Jain** after completing his graduation from London U.K. He started out by supplying un-dehusked Guar splits to developed markets where Guar Gum had already been identified for its application in the processed food, textile and oil-well drilling industries.

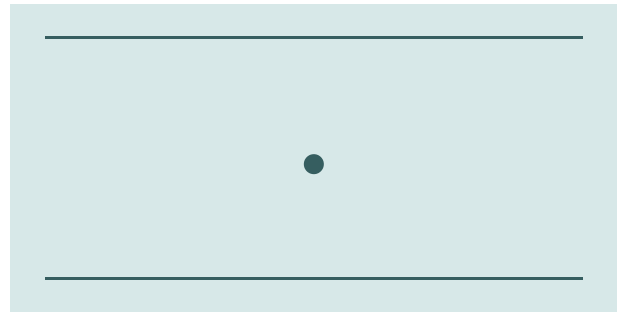

By adopting new technological advancements at every level of operation, we moved up the value-chain from un-dehusked Guar splits to dehusked Guar splits to Guar Gum Powder.

We, now manufacture various grades of Guar Gum Powder including-

- Industrial Grade
- Food Grade
- Pharmaceutical Grade
- Fast Hydration Gum

We are a leading manufacturer and supplier of Guar Gum powder and its derivatives and We are well known for our business services in Guar Gum Industry for building long-term relations with our customers, based on trust, support and reliability.

Our QUALITY CONTROL LABS monitor the quality of raw materials, as well as semi-finished and finished products. These facilities are well-equipped to maintain quality standards across the globe and across industries.

# BOARD OF DIRECTORS

Welcome to Vasundhara Industries. Being the pioneers of Guar production and among the largest supplier of Guar Products in India, are proud of our commitment to deliver on time with an unmatched quality of our product.

**Late Dr. Kamal Jain,**

*Founder*

Welcome to Vasundhara Industries, our motive has always been to create natural products that can improve the quality of life. The focus of our investment is always the research and development of various grades of Guar Gum Powder.

**Suman Jain,**

*CEO*

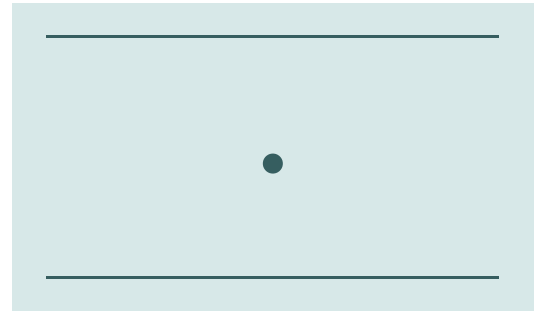

We, at Vasundhara Industries are committed to customer satisfaction by ensuring the supply of superior quality Guar Gum Powder with fulfillment of statutory and legal requirements that are expected by our esteemed customers with on-time delivery and continual improvement

**Anupam Jain,**

*Managing Director*

# PRODUCT PORTFOLIO

## Guar Gum

**Fast - Hydration Grade**  
(Oil Well Drilling Grade)

### Food Grade

- Polycol – 200
- Polycol – 225
- Polycol – 5000

### Industrial Grade

- HVG
- VS – 30
- HVG – 673
- Paper Gum – 200
- LVG

## Other Gums

**Locust Bean Gum**

**Xanthan Gum**

**Tamarind Kernel Powder**

- Oiled
- De-oiled

## Silicate Minerals

**China Clay**

**Ball Clay**

**Talc/Soap Stone Powder**

**Feldspar**

**Quartz Powder**

**Pyrophyllite Clay**

**Aluminum Silicate**

**Silica (Ramming Mass)**

**Bentonite**

**Mica Flakes**

**Mica Powder**

## Color Chems

**Sudarshan Color Chemicals**

# ABOUT GUAR GUM

Guar Gum is derived from Guar seeds. The guar seeds are de-husked, milled and screened to obtain Guar Gum Powder. It is typically produced as a free-flowing, off-white powder.

Guar Gum is the most effective thickeners and stabilizers.

Guar Gum is mainly used as-

- Emulsifier
- Thickener
- Binder
- Stabilizer etc.

Used in wide range of industrial applications

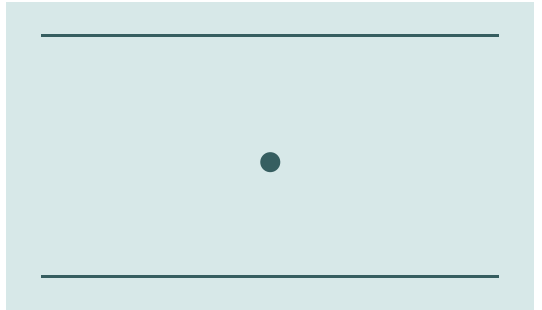

Guar gum is most economical in comparison to any other thickeners.

During last decade Guar Gum has emerged as an important industrial raw material in –

- Textile Printing
- Oil-well Drilling and Fracturing
- Food ingredients
- Pharmaceutical Industry
- Explosives, Etc

India is the largest producer of Guar Gum Powder with about 90% of world's Guar production.

Guar gum is extracted from guar bean also known as *Cyamopsis Tetragonoloba*. The guar beans are principally grown in India and Pakistan where India accounts for 80% of global trade in guar products.

# USES OF GUAR GUM POWDER

Food Industry	Uses
<b>Frozen Food Products</b>	Guar gum reduces crystal formation, act as a binder & stabilizer to extend shelf life of Ice-cream.
<b>Bakery</b>	Guar gum provides unparallel moisture preservation to the dough and retards fat penetration in baked foods.
<b>Dairy Products</b>	Guar Gum improves texture, maintains uniform viscosity and color.
<b>Dressing and sauces</b>	Guar gum acts as a water binder in sauces & salad dressings and reduces water & oil separation.
<b>Confectionary</b>	Guar gum controls viscosity, bloom, gel creation, glazing & moisture retention to produce the highest-grade confectionary.
<b>Beverages</b>	Guar gum provides outstanding viscosity control and reduces calories value in low calories beverages.
<b>Pet Food</b>	Guar gum forms gels & retains moisture, acts as a thickening, stabilizer and suspending agent for veterinary preparations.

Industrial Applications	Uses
<b>Textile</b>	Guar Gum reduces warp breakage, reduces dusting film forming thickening for dye.
<b>Oil Well Drilling</b>	Guar Gum helps in controlling water loss, viscosity, suspension, turbulence, mobility, friction reduction.
<b>Paper</b>	Replaces hemi-cellulose, increase strength, fold, pick, pulp hydration, extension of fines, decreases porosity.
<b>Explosives</b>	Guar Gum is used as water proofing, gelling agent.
<b>Mining</b>	Guar Gum Is used as flocculating and settling agent, filter aid.
<b>Water Treatment</b>	Guar Gum is used as Coagulant aid
<b>Synthetic Resins</b>	Guar Gum is used as thickening, binding agent.

# OUR USP

- We are situated in the heart of World's largest Guar producing area and can provide you the most-competitive pricing model in the market.
- Experience of more than 40 years in the Guar Gum Industry.
- An ISO 9001:2015 Certified Company.
- Authorized by FSSAI (Food Safety & Standards Authority of India).
- Use of top-quality seeds to produce Guar Gum Powder.
- State-of-the-art manufacturing facilities with diverse infrastructure and In-house laboratory equipped with all latest instruments.
- Wide range of Viscosities and Particle Sizes are available in Guar Gum for specific applications. Tailored Products are also possible
